

# Arif Muhammad Ihsan Marbun

Software Engineer

East Java, Indonesia | +62 852-8179-4625 | arifmuhammadihsan27@gmail.com

Portfolio: ariefihsann.my.id | LinkedIn: linkedin.com/in/arifmuhammadihsan | @ariefihsann

## PROFESSIONAL SUMMARY

---

Fullstack Developer with a track record of building integrated digital products using Agile Development methodologies. Possesses dual experience as a Product Owner and technical developer (.NET, React.js, Flutter), supported by strategic communication, UI/UX research, and solid project management skills.

## CORE COMPETENCIES

---

- |                                  |                              |
|----------------------------------|------------------------------|
| • Software Engineering           | • Graphic Design             |
| • Fullstack Software Development | • Computer Vision / Robotics |
| • Agile Methodology              | • Leadership                 |
| • UI/UX Research & Design        | • Project & Event Management |

## EXPERIENCE

---

### Product Owner & Software Developer

June 2025 – Present

- PayRo (Product Owner): Managed the Agile development cycle of an HRIS & Payroll system (Flutter, .NET, React.js), from backlog planning to technical execution.
- TBCare Mobile (Fullstack): Built an end-to-end mobile application encompassing database architecture, API, and a responsive frontend.
- E-Voting OSIS SMAN Darul Ulum (Fullstack): Developed a secure real-time e-voting system to facilitate 310 voters transparently.
- NutriLoop (UI/UX Design): Translated user research results into UX flows and interactive interface prototypes.

### Core Team UI/UX Designer

December 2025 - Present

- Optimized the UI/UX of community projects through structured research and shared practical insights with 150+ students as a speaker at Study Jam #2.

### Divisi Vision & Public Relations PIC | Robot Research Team (EMOSVER)

December 2025 – Present

- Developed an OpenCV-based computer vision system to enhance AI accuracy for underwater robots.
- Led external communication strategies and successfully established B2B partnerships with strategic corporate sponsors.

## **Mentor & Trainer | Olimpiade Sains Nasional (Informatika)**

February 2024 - June 2026

- Mentored dozens of students (across 7+ high schools) in preparation for the National Science Olympiad in Informatics (OSN-K) using problem-solving-based algorithm materials.
- Acted as a facilitator for Teacher Training to improve capacity and teaching methods for Informatics subjects.

## **EDUCATION**

---

**Electronic Engineering Polytechnic Institute of Surabaya**

2024 – Present

Bachelor of Applied Science in Informatics Engineering

- GPA: 3.6
- Study Focus: Software Engineering, UI/UX Design, Agile Development, Machine Learning, OpenCV.
